**ECON 201 Principles of Microeconomics (3 Credit Hours)**

Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course is an introduction to demand and supply, consumer choice, price analysis in alternative industrial organizations, and the distribution of income. Outcome: Students will be able to think critically about price formation in different market structures, and how prices, household incomes and income distribution in a diverse society are determined with interpretations based on the concepts of opportunity costs and decision making under uncertainty.

**Knowledge Area:** Tier 2 Societal Knowledge

**Course equivalencies:** ECON201/201H/ACECO201/CPST243

**ECON 201H Principles of Microeconomics - Honors (3 Credit Hours)**

Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. Restricted to SBA honors students or Honors students. This course is an introduction to demand and supply, consumer choice, price analysis in alternative industrial organizations, and the distribution of income. Outcome: Students will be able to think critically about price formation in different market structures, and how prices, household incomes and income distribution in a diverse society are determined with interpretations based on the concepts of opportunity costs and decision making under uncertainty.

**Knowledge Area:** Tier 2 Societal Knowledge

**Course equivalencies:** ECON201/201H/ACECO201/CPST243

**Outcomes:**

Students will be able to think critically about price formation in different market structures, and how prices, household incomes and income distribution in a diverse society are determined with interpretations based on the concepts of opportunity costs and decision making under uncertainty.

**ECON 202 Principles of Macroeconomics (3 Credit Hours)**

Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing. This course is an introduction to national product, its components, money and the real sectors and business fluctuations. Outcome: The students will be able to think critically about the economic environment of the nation and to measure growth, unemployment, inflation, fiscal and monetary policies of the government, to ultimately understand economic stability and the welfare of the individual citizen.

**Knowledge Area:** Tier 2 Societal Knowledge

**Course equivalencies:** ECON202/ECON202H/ACECO202/245

**ECON 202H Principles of Macroeconomics - Honors (3 Credit Hours)**

Restricted to SBA honors students or Honors students. This course is an introduction to national product, its components, money and the real sectors and business fluctuations.

**Course equivalencies:** ECON202/ECON202H/ACECO202/245

**Outcomes:**

The students will be able to think critically about the economic environment of the nation and to measure growth, unemployment, inflation, fiscal and monetary policies of the government, to ultimately understand economic stability and the welfare of the individual citizen.

**ECON 303 Intermediate Microeconomics (3 Credit Hours)**

**Pre-requisites:** Sophomore standing, minimum grade of "C-" in ECON 201 and 202

This course is a detailed study of consumer and firm behavior, market structures, and the elementary propositions concerning welfare economics. Outcome: The students will develop analytical skills to understand and predict consumer and firm behavior, understand the underlying pinning of antitrust legislation and dynamic market strategies.

**Course equivalencies:** ECON303/303H

**ECON 304 Intermediate Macroeconomics (3 Credit Hours)**

**Pre-requisites:** Sophomore standing, minimum grade of "C-" in ECON 201 and 202

This course develops the framework used by economists in government, business and academia to analyze the key determinants of economic growth, the business cycle, unemployment, inflation, the level of interest and exchange rates, as well as explaining how all these variables are influenced by monetary and fiscal policy. Outcome: The students are able to understand and critically analyze business cycles, financial market fluctuations, and to study inflation and unemployment policies.

**ECON 320 Urban Economics (3 Credit Hours)**

**Pre-requisites:** Sophomore standing, minimum grade of "C-" in ECON 201 and 202

This course analyzes the economic role and functioning of cities and examines urban issues such as real estate markets, transportation, economic development, and crime. Outcome: Students will understand the economic forces that shape urban agglomerations. Students will understand the economic and ethical trade-offs of various urban economic policies. They will be able to think critically about the economic forces that make a city grow and contract over time.

**Interdisciplinary Option:** Urban Studies

**Course equivalencies:** X-ECON320/URB320

**ECON 323 International Economics (3 Credit Hours)**

**Pre-requisites:** Sophomore standing, minimum grade of "C-" in ECON 201 and 202

This course analyzes microeconomic and macroeconomic theories of global trade, balance of payments, adjustment problems and the international monetary system. Outcome: Students will be able to demonstrate the ability to critically apply microeconomic and macroeconomic concepts to the understanding of international economic phenomena/problems. This course emphasizes the role of economic leadership to promote peace and justice in a global diverse world.

**Interdisciplinary Option:** Global Studies, International Business

**Course equivalencies:** X-ECON323/INTS323

</table>
ECON 370  Pricing & Industrial Organization  (3 Credit Hours)
Pre-requisites: Sophomore standing, minimum grade of "C-" in ECON 201 and 202
This course investigates firm behavior, strategies and market outcomes in settings of less than perfect competition. Outcome: Students learn to evaluate various strategies both in terms of firm profitability as well as consumer surplus.

ECON 395  Independent Study in Economics  (1-3 Credit Hours)
Pre-requisites: Sophomore standing, instructor and dean permission required
Student will conduct in-depth research or reading, initiated by the student and jointly developed with a faculty member, into a specialized area of Economics not otherwise covered by department course offerings. Outcome: Students will be able to demonstrate in-depth understanding of a specialized area or topic in Economics.

ECON 399  Special Topics in Economics  (1-3 Credit Hours)
Pre-requisites: Sophomore standing
Scheduled classes are offered on an ad hoc basis. Specific titles, prerequisites and content will vary. Outcome: Students will be able to demonstrate understanding of specialized topics not otherwise covered by department regular course offerings.

ECON 420  Managerial Economics  (3 Credit Hours)
Pre-requisites: ISSCM 400 OR ISSCM 400N This course uses tools of economic analysis to understand demand, supply, profits, production, competition, pricing policies, business criteria for investment, output, and marketing decisions. Outcome: Students are able to do critical managerial decisions with respect to output and pricing policies in different business and industrial environments.

ECON 420B  Managerial Economics  (3 Credit Hours)
This course uses tools of economic analysis to understand demand, supply, profits, production, competition, pricing policies, business criteria for investment, output, and marketing decisions. Outcome: Students are able to do critical managerial decisions with respect to output and pricing policies in different business and industrial environments.

ECON 420E  Managers, Markets and Decision Making  (3 Credit Hours)
Enrollment is restricted to students in the Executive MBA Program. The purpose of this course is to guide students in recognizing, analyzing, and solving managerial problems related to firms and markets under conditions of uncertainty. The course uses economic analysis to understand demand, supply, profit, production, competition, pricing policies and business criteria for investments. Strategic decisions using economic laws influenced by FED will also be examined. Outcome: Students will be able to demonstrate understanding of specialized topics not otherwise covered by department regular course offerings.

Course equivalencies: ECON 420E/ECON 600E

ECON 421  Business Fluctuations  (3 Credit Hours)
Pre-requisites: ECON 420 This course studies the economic environment’s impact on the firm where topics include national income accounting, factors in economic fluctuations and growth, fiscal and monetary policies, economic forecasting, the relationship of foreign trade and balance of payments on economic activities, economic indicators and measures, and problems of public policy
No course description is available
Outcomes:
Students learn to recognize the macro environment and the business cycles in which to operate in and to make learned forecasts.

ECON 424  Internatnl Business Economics  (3 Credit Hours)
Pre-requisites: ECON 420 This course analyzes topics in international economics, specialization and comparative advantage, balance of payments and foreign exchange, elements of commercial policy, and international investment. Outcome: The students develop skills in this course in analytical and creative thinking, Communication and team-work in evaluating trade policies and opportunities, comparative advantage, exchange rate dynamics and fluctuations and risk management.

ECON 424E  Global Issues in Economics  (1.5 Credit Hours)
Enrollment is restricted to students in the Executive MBA Program.
Examines the role of prices, incomes, interest rates, exchange rates, trade policy, and the global monetary system in determining the movement of outputs and inputs across national boundaries. The gains from trade and the conflicts created by the manner in which those gains are distributed provide a foundation for examining current issues. Outcome: Students will be able to demonstrate understanding of a specialized area or topic in economics.

Course equivalencies: ECON 424E/ECON 602E

ECON 429  Indep Study in Bus Economics  (3 Credit Hours)
Pre-requisites: ECON 420 This course studies cooperative and non-cooperative games and winning strategies and discusses prisoners dilemma, tragedies of common resources, executive compensation and auctions as applied to mergers and acquisitions.
Outcome: Students learn to think systematically to set strategy for the modern corporate firm in both cooperative and non-cooperative situations and to solve conflicts arising from principal agent problems.

ECON 522  Game Theory & Strategy  (3 Credit Hours)
Pre-requisites: ECON 420 This course studies cooperative and non-cooperative games and winning strategies and discusses prisoners dilemma, tragedies of common resources, executive compensation and auctions as applied to mergers and acquisitions.
Outcome: Students learn to think systematically to set strategy for the modern corporate firm in both cooperative and non-cooperative situations and to solve conflicts arising from principal agent problems.

Course equivalencies: ECON 424E/ECON 602E

ECON 599  Special Topics  (3 Credit Hours)
Pre-requisites: ECON 420; Restricted to Graduate School of Business students
Scheduled classes are offered on an ad hoc basis. Specific titles, prerequisites and content will vary.
Outcomes:
Students will be able to demonstrate understanding of specialized topics not otherwise covered by department regular course offerings.

ECON 602E  Global Issues in Economics  (1.5 Credit Hours)
Examines the role of prices, incomes, interest rates, exchange rates, trade policy, and the global monetary system in determining the movement of outputs and inputs across national boundaries. The gains from trade and the conflicts created by the manner in which those gains are distributed provide a foundation for examining current issues.

Outcome: Students will be able to demonstrate understanding of a specialized area or topic in economics.

Course equivalencies: ECON 424E/ECON 602E

ECON 622  Derivative Securities  (3 Credit Hours)
Pre-requisites: FINC 450 This course is a comprehensive introduction to the theory, use, and valuation of derivative securities, with particular emphasis on options and forward/futures contracts.
A sound understanding of the intuition underlying option pricing is critical to a thorough understanding of modern finance and financial risk management. We may also look at other types of derivatives as well as some extensions of the most fundamental models.
ECON 625 Applied Econometrics (3 Credit Hours)

Prerequisites: ECON 420 and ISSCM 491 The purpose of this course is to help students understand feasible econometric techniques in order to mine information to understand economic and financial patterns and to forecast.

A rigorous exposition of the theory behind econometric techniques will help students understand the issues raised in different published papers. Topics of econometric techniques covered in this course include panel data analysis, time-series models, discrete choice models, and methods to identify causality between variables. Practical applications will prepare students to use these methods in their own projects.

Course equivalencies: X-ECON625/FINC625
