IMPLEMENTATION SCIENCE (MIS)

Discover, search, courses (https://catalog.luc.edu/course-search/)

**MIS 400 Implementation Science Theories (3 Credit Hours)**
The course will review the major theories used in implementation science.
*Outcomes:*
Students will be able to define, explain and determine in what situations the various theories of implementation science best apply

**MIS 402 Implementation Science Research Methods (3 Credit Hours)**
This course will review research methods used in conducting implementation science research.
*Outcomes:*
Students will be able to define, explain and apply various research methods to different study questions

**MIS 404 Qualitative Methods for Implementation Science Research (3 Credit Hours)**
This course will review various qualitative methods including interviews, focus groups and other strategies.
*Outcomes:*
Students will be able to create an interview guide and focus group script, and understand basics of coding qualitative data

**MIS 406 Community-Engaged Research (3 Credit Hours)**
This course will review various qualitative methods including interviews, focus groups and other strategies.
*Outcomes:*
Students will be able to create an interview guide and focus group script, and understand basics of coding qualitative data

**MIS 408 Dissemination Strategies (1 Credit Hour)**
This brief course will demonstrate how to present key findings in the most understandable and usable formats.
*Outcomes:*
Students will be able to prepare key findings and messages in understandable and usable formats

**MIS 410 Field Practicum in Implementation Science (6 Credit Hours)**
*Pre-requisites: MIS 400, MIS 402, MIS 404, MIS 406, MIS 408*
This practicum will provide students with hands on experience in developing and leading a pilot implementation project.
*Outcomes:*
Students will present their findings as a requirement for completion of their MS
