

URBAN AFFAIRS (MA)

The Master of Arts (MA) in Urban Affairs is an interdisciplinary degree program focusing on how cities work and the challenges they face, such as economic growth or decline, globalization and immigration, and the impact of the housing market on neighborhood stability. The curriculum brings together viewpoints and analytical tools from multiple fields to provide different perspectives on the causes of urban problems and their possible solutions.

The Urban Affairs program at Loyola is a professional degree focused on training students to assume technical or leadership roles in government, nonprofit organizations, or business. Students develop skills in coursework and gain work-related experience through internships or capstone policy clinics.

Curriculum

The MA in Urban Affairs requires 31 hours of coursework—10 three-credit courses, plus a one-credit Professional Development course where students attend a series of meetings covering critical professional skills such as resume and cover letter writing, informational interviews, self-assessments, and networking. Students also complete a required 3 credit hour internship or capstone policy clinic. Students can complete the program in 18-24 months.

Learning Outcomes

Upon completion of the Master's degree, graduates will be able to:

1. Draw on a variety of disciplinary perspectives, such as politics, economics, sociology, and history, to understand the complexity of urban issues.
2. Identify sources of urban power and their impact on city conditions, on potential systematic biases, and how likely these biases could be overcome.
3. Analyze a city budget and evaluate it from different stakeholder positions.
4. Analyze urban issues using multiple technical approaches: statistical techniques; fiscal analysis; needs assessments, community impact studies, and program evaluations.
5. Experience working in the public policy arena in a government agency, non-profit, research, or private sector organization.
