## Clinical Experiences

A minimum of 2,000 hours of recent clinical practice experience is required before entering the first APRN clinical rotation. Clinical placements for students in these programs are in the Chicago area, and students must have an Illinois RN license and CCRN certification before they begin their clinical experience/rotation.

## Graduate & Professional Standards and Regulations

Students in graduate and professional programs can find their Academic Policies in Graduate and Professional Academic Standards and Regulations (<https://catalog.luc.edu/graduate-professional-academic->

standards-regulations/) under their school. Any additional University Policies supercede school policies.

## Learning Outcomes

### PROGRAM GOAL

The goal of the Doctor of Nursing Practice (DNP) program is to prepare nurses to assume advanced roles in direct care and systems leadership domains at the highest level of nursing to improve health care outcomes through practice-based scholarship.

### PROGRAM OUTCOMES

At the completion of the DNP program, the graduate has the knowledge and skills to:

- Apply integrated scientific, knowledge and clinical judgements at the highest level of professional nursing practice.
- Evaluate health care delivery approaches and healthcare systems, with an emphasis on quality and safety.
- Apply best evidence in approaches to client and system-centered practices.
- Apply analytic approaches and information technology in the delivery and improvement of client-centered health care and health care systems.
- Employ ethics, leadership, and advocacy concepts to advance healthcare quality and equity for individuals, systems and populations.
- Implement intraprofessional and interprofessional leadership and collaboration competencies and methods, at the highest level of professional nursing practice in advancing health and health outcomes.
