HISTORY (BA/MA)

The combined BA and MA degree program in History integrates Loyola University Chicago's (LUC) current History degree programs at the undergraduate and master levels. The program provides specially selected History majors with the opportunity to more efficiently move through two degrees and thereby jump-start their professional development by completing two degrees in five rather than six years. Graduates of this program are well prepared to pursue a PhD in History, to apply to a professional school, or to seek a teaching position at the post-secondary level.

The combined degree is available for only the MA degree in History (not the program for the MA in Public History or the dual degree Public History/MLIS degree with Dominican University). The program outcomes are the same as for the MA in History.

CURRICULUM

Students in a BA/MA program begin graduate courses during the first semester of their senior year. To complete the program, students will have to earn a total of 30 credit hours during their senior year and graduate career. Twelve of those hours can count towards both the undergraduate major and the graduate degree. No graduate courses will be taken during the freshman, sophomore, or junior years.

Pre-requisites: Students in the combined degree program begin their senior year with 27–30 total credits in their History major, including the successful completion of HIST 299 Historical Methods.

During your senior year:

• Take the required 3-credit introductory-level graduate course (HIST 400 Twentieth Century Approaches to History) in the fall semester;
• Take an additional 9-credits of graduate classes in the fall or spring semesters:
  • One of these courses should be one of the two approved undergraduate seminars: HIST 599 Directed Primary Research as this course fulfills one of the 500-level graduate seminar requirements
  • The other 400-level courses can fulfill the 300-level requirements for the major or general electives toward the BA and your Master’s Degree

During your graduate year:

• Take 18 credits: three graduate courses in the fall semester and three in the spring semester. One of those courses should be a 500-level seminar;
• Take your qualifying examination at the end of the spring semester.

Please note: Only 12 hours can be completed during your senior year. All other graduate courses must be taken during the graduate year.

Research Tool Requirement

All Master's level students must demonstrate competence in a research skill (e.g., oral history, digital humanities, or a reading knowledge of a foreign language) appropriate to their major field. They are expected to master this skill before advancing beyond 18 credit hours. Coursework taken to master this requirement does not apply toward the hours required for graduation.

Guidelines for Accelerated Bachelor’s/Master’s Programs

Terms

• Accelerated Bachelor's/Master's programs: In this type of program, students share limited credits between their undergraduate and graduate degrees to facilitate completion of both degrees.
• Shared credits: Graduate level credit hours taken during the undergraduate program and then applied towards graduate program requirements will be referred to as Shared credits.

Admission Requirements

Accelerated Bachelor’s/Master’s programs are designed to enhance opportunities for advanced training for Loyola's undergraduates. Admission to these programs must be competitive and will depend upon a positive review of credentials by the program's admissions committee. Accordingly, the admission requirements for these programs may be higher than those required if the master's degree were pursued entirely after the receipt of a bachelor's degree. That is, programs may choose to have more stringent admissions requirements in addition to those minimal requirements below.

Requirements:

• Declared appropriate undergraduate major,
• By the time students begin taking graduate courses as an undergraduate, the student has completed approximately 90 credit hours, or the credit hours required in a program that is accredited by a specialty organization.1
• A minimum cumulative GPA for coursework at Loyola that is at or above the program-specific requirements, a minimum major GPA that is at or above the program-specific requirements, and/or appropriate designated coursework for evaluation of student readiness in their discipline.2

Students not eligible for the Accelerated Bachelor's/Master's program (e.g., students who have not declared the appropriate undergraduate major) may apply to the master's program through the regular admissions process. Students enrolled in an Accelerated Bachelor’s/Master's program who choose not to continue to the master's degree program upon completion of the bachelor's degree will face no consequences.3

Ideally, a student will apply for admission (or confirm interest in proceeding towards the graduate degree in opt-out programs) as they approach 90 credit hours. Programs are encouraged to begin advising students early in their major so that they are aware of the program and, if interested, can complete their bachelor's degree requirements in a way that facilitates completion of the program. Once admitted as an undergraduate, Program Directors should ensure that students are enrolled using the plan code associated with the Accelerated Bachelor's/Master's program. Using the plan code associated with the Accelerated Bachelor’s/Master's program will ensure that students may be easily identified as they move through the program. Students will not officially matriculate into the master's degree program and be labeled as a graduate student by the university, with accompanying changes to tuition and Financial Aid (see below), until the undergraduate degree has been awarded. Once admitted to the graduate program, students must meet

1

2

3
the academic standing requirements of their graduate program as they complete the program curriculum.

1 Programs that have specialized accreditation will adhere to the admissions criteria provided by, or approved by, their specialized accreditors.
2 The program will identify appropriate indicators of student readiness for graduate coursework (e.g., high-level performance in 300 level courses). Recognizing differences between how majors are designed, we do not specify a blanket requirement.
3 If students choose not to enroll in the Accelerated Bachelor’s/Master’s program, they still must complete all of the standard requirements associated with the undergraduate degree (e.g., a capstone).

Curriculum

Level and progression of courses. The Accelerated Bachelor’s/Master’s programs are designed to be competitive and attractive to our most capable students. Students admitted to Accelerated Bachelor’s/Master’s programs should be capable of meeting graduate level learning outcomes. Following guidance from the Higher Learning Commission, only courses taken at the 400 level or higher (including 300/400 level courses taken at the 400 level) will count toward the graduate program. Up to 50% of the total graduate level credit hours, required in the graduate program, may come from 300/400 level courses where the student is enrolled in the 400 level of the course. Further, at least 50% of the credit hours for the graduate program must come from courses that are designed for and restricted to graduate students who have been admitted to a graduate program at Loyola (e.g., enrolled in plan code that indicates the Accelerated Bachelor’s/Master’s program, typically ending with the letter “D”).

In general, graduate level coursework should not be taken prior to admission into the Accelerated Bachelor’s/Master’s program. Exceptions may be granted for professional programs where curriculum for the Accelerated Bachelor’s/Master’s program is designed to begin earlier. On the recommendation of the program’s Graduate Director, students may take one of their graduate level courses before they are admitted to the Accelerated Bachelor’s/Master’s program if they have advanced abilities in their discipline and course offerings warrant such an exception. Undergraduate degree requirements outside of the major are in no way impacted by admission to an Accelerated Bachelor’s/Master’s program.

Shared credits. Undergraduate courses (i.e., courses offered at the 300 level or below) cannot be counted as shared credits nor count towards the master’s degree. Up to 50% of the total graduate level credit hours, required in the graduate program, may be counted in meeting both the undergraduate and graduate degree requirements. Of those shared credits, students in an Accelerated Bachelor’s/Master’s program should begin their graduate program with the standard introductory course(s) for the program whenever possible. So that students may progress through the Accelerated Bachelor’s/Master’s program in a timely manner, undergraduate programs are encouraged to design their curriculum such that a student can complete some required graduate credit hours while completing the undergraduate degree. For instance, some of the graduate curriculum should also satisfy electives for the undergraduate major.

The program’s Graduate Director will designate credit hours to be shared through the advising form and master’s degree conferral review process. Shared credit hours will not be marked on the undergraduate record as having a special status in the undergraduate program. They will be included in the student’s undergraduate earned hours and GPA. Graduate credit hours taken during the undergraduate program will not be included in the graduate GPA calculation.

1 If students wish to transfer credits from another university to Loyola University Chicago, the program’s Graduate director will review the relevant syllabus(es) to determine whether it meets the criteria for a 400 level course or higher.
2 Programs with specialized accreditation requirements that allow programs to offer graduate curriculum to undergraduate students will conform to those specialized accreditation requirements.
3 In rare cases, the Graduate Director may authorize enrollment in a 400-level course for a highly qualified and highly motivated undergraduate, ensuring that the undergraduate’s exceptional participation in the graduate class will not diminish in any way the experience of the graduate students regularly enrolled.
4 For example, if a particular course is only offered once every 2-3 years, and a student has demonstrated the necessary ability to be successful, the Graduate Director may allow a student to take a graduate level course to be shared prior to the student being formally admitted to the graduate program. See, also, footnote 4.
5 Students should not, for example, attempt to negotiate themselves out of a writing intensive requirement on the basis of admission to a graduate program.

Graduation

Degrees are awarded sequentially. All details of undergraduate commencement are handled in the ordinary way as for all students in the School/College/Institute. Once in the graduate program, students abide by the graduation deadlines set forth by the graduate program. Students in these programs must be continuously enrolled from undergraduate to graduate degree program unless given explicit permission by their program for a gap year or approved leave of absence.

LEARNING OUTCOMES

• Produce analytical arguments by using evidence and facts to interpret past events, behavior and processes in their own historical writing and projects.
• Identify the arguments put forth by historians in order to compare, evaluate and criticize different interpretations of the past. In doing so, our graduates will be able to evaluate the adequacy of evidence (including a variety of sources: documents, films, diaries, images, oral and digital histories, etc.) that historians use to make truth claims about the past.
• Demonstrate an understanding of the processes of historical change and be able to discuss and evaluate causes, complexities and consequences of change over time in relationship to historical events and processes.
• Demonstrate an understanding that human values and beliefs are shaped by historical context and they will gain the capacity to make informed judgements about past and present behavior and ideas with a goal of fashioning a more just world. In this endeavor, students will gain an understanding of the ethical practices and standards for historical research and writing.
