

# SOCIOLOGY-ANTHROPOLOGY (BA)

This combined BA degree is designed for those students who are interested in both sociology and anthropology. It focuses on those areas of the two disciplines where there is convergence in theory and methods. Through the SANT major, students are introduced to major substantive areas in both disciplines. The major allows enough choice in electives that students may focus on a broader perspective in social science than is available in either the single sociology major or the single anthropology major.

## Curriculum

### Degree Requirements

Code	Title	Hours
<b>Natural Science Intro Course</b>		
Select one of the following:		3

## College of Arts and Sciences Graduation Requirements

All Undergraduate students in the College of Arts and Sciences are required to take two Writing Intensive courses (6 credit hours) as well as complete a foreign language requirement at 102-level or higher (3 credit hours) or a language competency test. More information can be found here (<https://www.luc.edu/cas/college-requirements/>).

## Additional Undergraduate Graduation Requirements

All Undergraduate students are required to complete the University Core, at least one Engaged Learning course, and UNIV 101. SCPS students are not required to take UNIV 101. Nursing students in the Accelerated BSN program are not required to take core or UNIV 101. You can find more information in the University Requirements (<https://catalog.luc.edu/undergraduate/university-requirements/>) area.

## Learning Outcomes

Students who complete the combined Sociology-Anthropology degree will:

1. Acquire an understanding of the major substantive areas in both anthropology and sociology
2. Become familiar with areas where there is convergence in theory and methods in the two disciplines as well as how the disciplines are distinct
3. Gain a broader perspective in social science than is available in either the single Sociology major or the single Anthropology major
4. Develop skills to analyze multiple kinds of social science data and communicate social science knowledge verbally and in writing
