

CORE AND YOUR MAJOR AND MINOR

Some Core Area requirements can be satisfied by virtue of completing a major or minor program of study, given the extensive work a student must do in a particular knowledge area while pursuing such a program of study.

The following waivers concern Core Area requirements, not major or minor requirements. Please see your major or minor advisor for details about those requirements.

If you change majors or minors, you may have completed some Core Curriculum requirements prior to the change. Please check with your academic advisor for confirmation of your remaining Core Curriculum requirements.
